a gripping portrait of black power politics and the struggle for civil rights in postwar oakland as the birthplace of the black panthers and a nationwide tax revolt california embodied a crucial motif of the postwar united states the rise of suburbs and the decline of cities a process in which black and white histories inextricably joined american babylon tells this story through oakland and its nearby suburbs tracing both the history of civil rights and black power politics as well as the history of suburbanization and home owner politics robert self shows that racial inequities in both new deal and great society liberalism precipitated local struggles over land jobs taxes and race within postwar metropolitan development black power and the tax revolt evolved together in tension american babylon demonstrates that the history of civil rights and black liberation politics in california did not follow a southern model but represented a long term struggle for

economic rights that began during the world war ii years and continued through the rise of the black panthers in the late 1960s this struggle yielded a wide ranging and profound critique of postwar metropolitan development and its foundation of class and racial segregation self traces the roots of the 1978 tax revolt to the 1940s when home owners real estate brokers and the federal government used racial segregation and industrial property taxes to forge a middle class lifestyle centered on property ownership using the east bay as a starting point robert self gives us a richly detailed engaging narrative that uniquely integrates the most important racial liberation struggles and class politics of postwar america

the passing of the patriot act in 2001 brought the tension between individual citizen s rights and governmental control to the forefront of american political discourse it seems that the state by claiming that they are increasing our collective security is in actuality operating against the common good more than anything else recent events highlight the need for texts such as for the common good this book is the culmination of research that investigated such topics as race class gender and sexuality violence and victimization prostitution employee drug testing hate speech legislation women processed by the criminal justice system the war on drugs and the war on crime all the pieces come from a critical perspective and some of them are written from a marxian perspective all of the papers on the volume rely at least tacitly on the notions that reality is constructed deviance is created by the normative order and that the power that some groups have over that of others lies at the heart of societal social control a key point of strength in this anthology is the methodological nature of the papers included most of the pieces are based on original research using various methodologies several theoretical pieces such as bruce arrigo s law crime and social control making sense of conflict radical and postmodern criminology and andrew taslitz s the jury and the common good synthesizing the insights of modern and postmodern legal theories are included ensuring a more balanced approach the cross disciplinary nature of the work included here is a further advantage of this text the papers in for the common good include works by professionals from the fields of sociology criminology criminal justice public policy studies psychology and law and because nothing is as separate as two mounds of expertise efforts to bridge disciplinary gaps are critical finally given our volatile political times where personal rights and freedoms are weighed against national security and found wanting on nearly a daily basis a rearticulation and further emphasis on a critical examination of law and social control appears urgent editors miller and browning seek to respond to this need
